

# Sorted Raw Fiber for Sale -- Huacaya and Suri Alpaca and some Wool

Natural Fiber Producers

[info@naturalfiberproducers.com](mailto:info@naturalfiberproducers.com)

Alpaca fiber has been sorted into grades 1-6. It is not washed.  
 Grades were determined by trained Sorters. In general, they are:

- Grade 1 = less than 20 microns
- Grade 2 = low 20's micron
- Grade 3 = mid 20's micron - may require dehairing
- Grade 4 = upper 20's micron - may require dehairing
- Grade 5 = high 20's-low 30's microns
- Grade 6 = mid 30's micron - will include coarse fiber

Each Lot of fiber is *primarily* the grade(s) listed. There may be small amounts of other grades included.  
 A Lot may contain more than one color. It may have both huacaya and suri types.  
 If known that it is all Huacaya or all Suri, it is noted below.  
 A lot may contain both "woolen" and "worsted" fiber lengths.  
 Woolen length is generally 3" or less; Worsted length is generally more than 3".

**TERMS:** Shipping charges will be determined after order is placed.

Buyer will be invoiced for Lots ordered and shipping.

**Payment of invoice required in order to secure fiber order.**

**Minimum order: 20 #** \* Indicates less than minimum; please add items

\*\* Wool prices are USDA

## FINAL DISCOUNTS SHOWN
